Partners and Colleagues,

The FM QSMO is excited to announce that the first commercial vendor has completed the evaluation/onboarding process for the FM QSMO Special Item Number (SIN) 518210FM and is now an approved provider in the FM QSMO Marketplace! This important milestone signifies continued progress in establishing the FM QSMO Marketplace. **CGI Federal, Inc.** joins the previously committed federal providers, Administrative Resource Center (ARC), Interior Business Center (IBC), and Enterprise Service Center (ESC), in offering financial management solutions and services in the FM QSMO Marketplace, along with products and services offered by Treasury's Bureau of the Fiscal Service.

Near-term expansion of commercial offerings in the FM QSMO Marketplace is anticipated as additional vendors have also submitted packages in response to the FM QSMO SIN and are currently going through the evaluation/onboarding process.

Treasury appreciates the continued interest and participation of industry in establishing the commercial portion of the FM QSMO Marketplace. Both commercial and federal providers are important parts of the FM QSMO Marketplace, in offering choice and flexibility to agencies planning financial system modernizations, sustaining current operations, and/or fulfilling a variety of other financial management needs.

The FM QSMO will soon be launching its online Marketplace Catalog as a resource for agencies to explore, identify, and research commercial and federal offerings and Fiscal Service products and services.

Vendors and agencies with questions are encouraged to contact the FM QSMO at FMQSMO@fiscal.treasury.gov. Resources for both industry and agency stakeholders are also available on the FM QSMO website at www.fiscal.treasury.gov/fmqsmo/resources.

Thank you for your continued support and stay tuned for additional important updates soon!
